CELIA LINDSELL LAVENDER ESSENTIAL

OIL. Lavender essential oils are two-a-penny these days, but they are not all equally potent. This one, blended for Celia Lindsell from lavender harvested in the south of France, is sublime, and a household staple. You can put it on bites and burns, drop it on a pillow to send you to sleep, or into the washing machine softener compartment to make clothes smell fresh and deter moths. £10.50, celialindsell.com.
